Thanks Nathan. I will coordinate with everyone here and find a good time to set this up.

EXTERNAL EMAIL

Hello Eric,

Yes, my colleague Larry Granato and I conducted inspections at all the Merit Energy Class II injection wells in the Steamboat Butte field as well as a few remaining Merit wells in the Circle Ridge field.

My schedule looks best this week Tuesday prior to 12:00 noon (Mtn time) or Friday most of the day. Feel free to send an electronic meeting invitation.

**Subject:** Steamboat EPA Wells

Nathan,

It is my understanding that while you were out in the field last week you stopped by some of our Steamboat wells and had some questions/issues. We would like to find some time to discuss what you observed out there so that we can better understand what we need to do to be compliant with EPA rules and regulations. We would also like to discuss a well (Tribal C 13) concerning a construction permit that we did not use.

If you have some time this week, we would like to have a phone call with you to discuss both issues. Let me know when you are free, and I can set something up. Thanks.
